

 MILTON BRO

“The Art of Cooling: Our
Philosophy”

We see cooling as an art, where
science, precision, and innovation
come together to create seamless comfort ...

MILTON

2018

Our professionalism is built on the foundation of integrity, excellence, and unwavering dedication. We hold ourselves to the highest standards; fostering trust, embracing innovation, and pursuing quality in everything we do

- Integrity Guides Us
- Accountability Defines Us
- Excellence Drives Us

Every product, service and interaction, we deliver with purpose and precision.

Milton was established with a clear objective to produce world-class refrigeration solutions built on quality, innovation, and consistency. With cutting-edge machinery and a commitment to quality, we manufacture premium stainless-steel coolers and freezers designed to meet the highest global standards.

We are proud to be a Canadian manufacturer that produce premium quality, best performance, energy efficient, and long-lasting products. Every unit reflects our dedication to craftsmanship, backed by advanced R&D and strict quality control at every stage.

From design to assembly, each product undergoes rigorous testing to ensure consistent performance under the most demanding conditions. Our legacy is built on trust, commitment and above all business partnerships that we admire across the globe. Milton stands not just as a brand—but as a promise of “cold” you can count on.

From the Land of Ice and Cold Milton was born to achieve and deliver the highest standards worldwide, from R&D development and testing to high quality raw material, to specialized engineers, all are behind this optimal product.

Reimagine Refrigeration. Redefine your Space.

Discover sleek, high-performance refrigeration that blends advanced technology, energy efficiency, and lasting freshness; designed to elevate any environment.

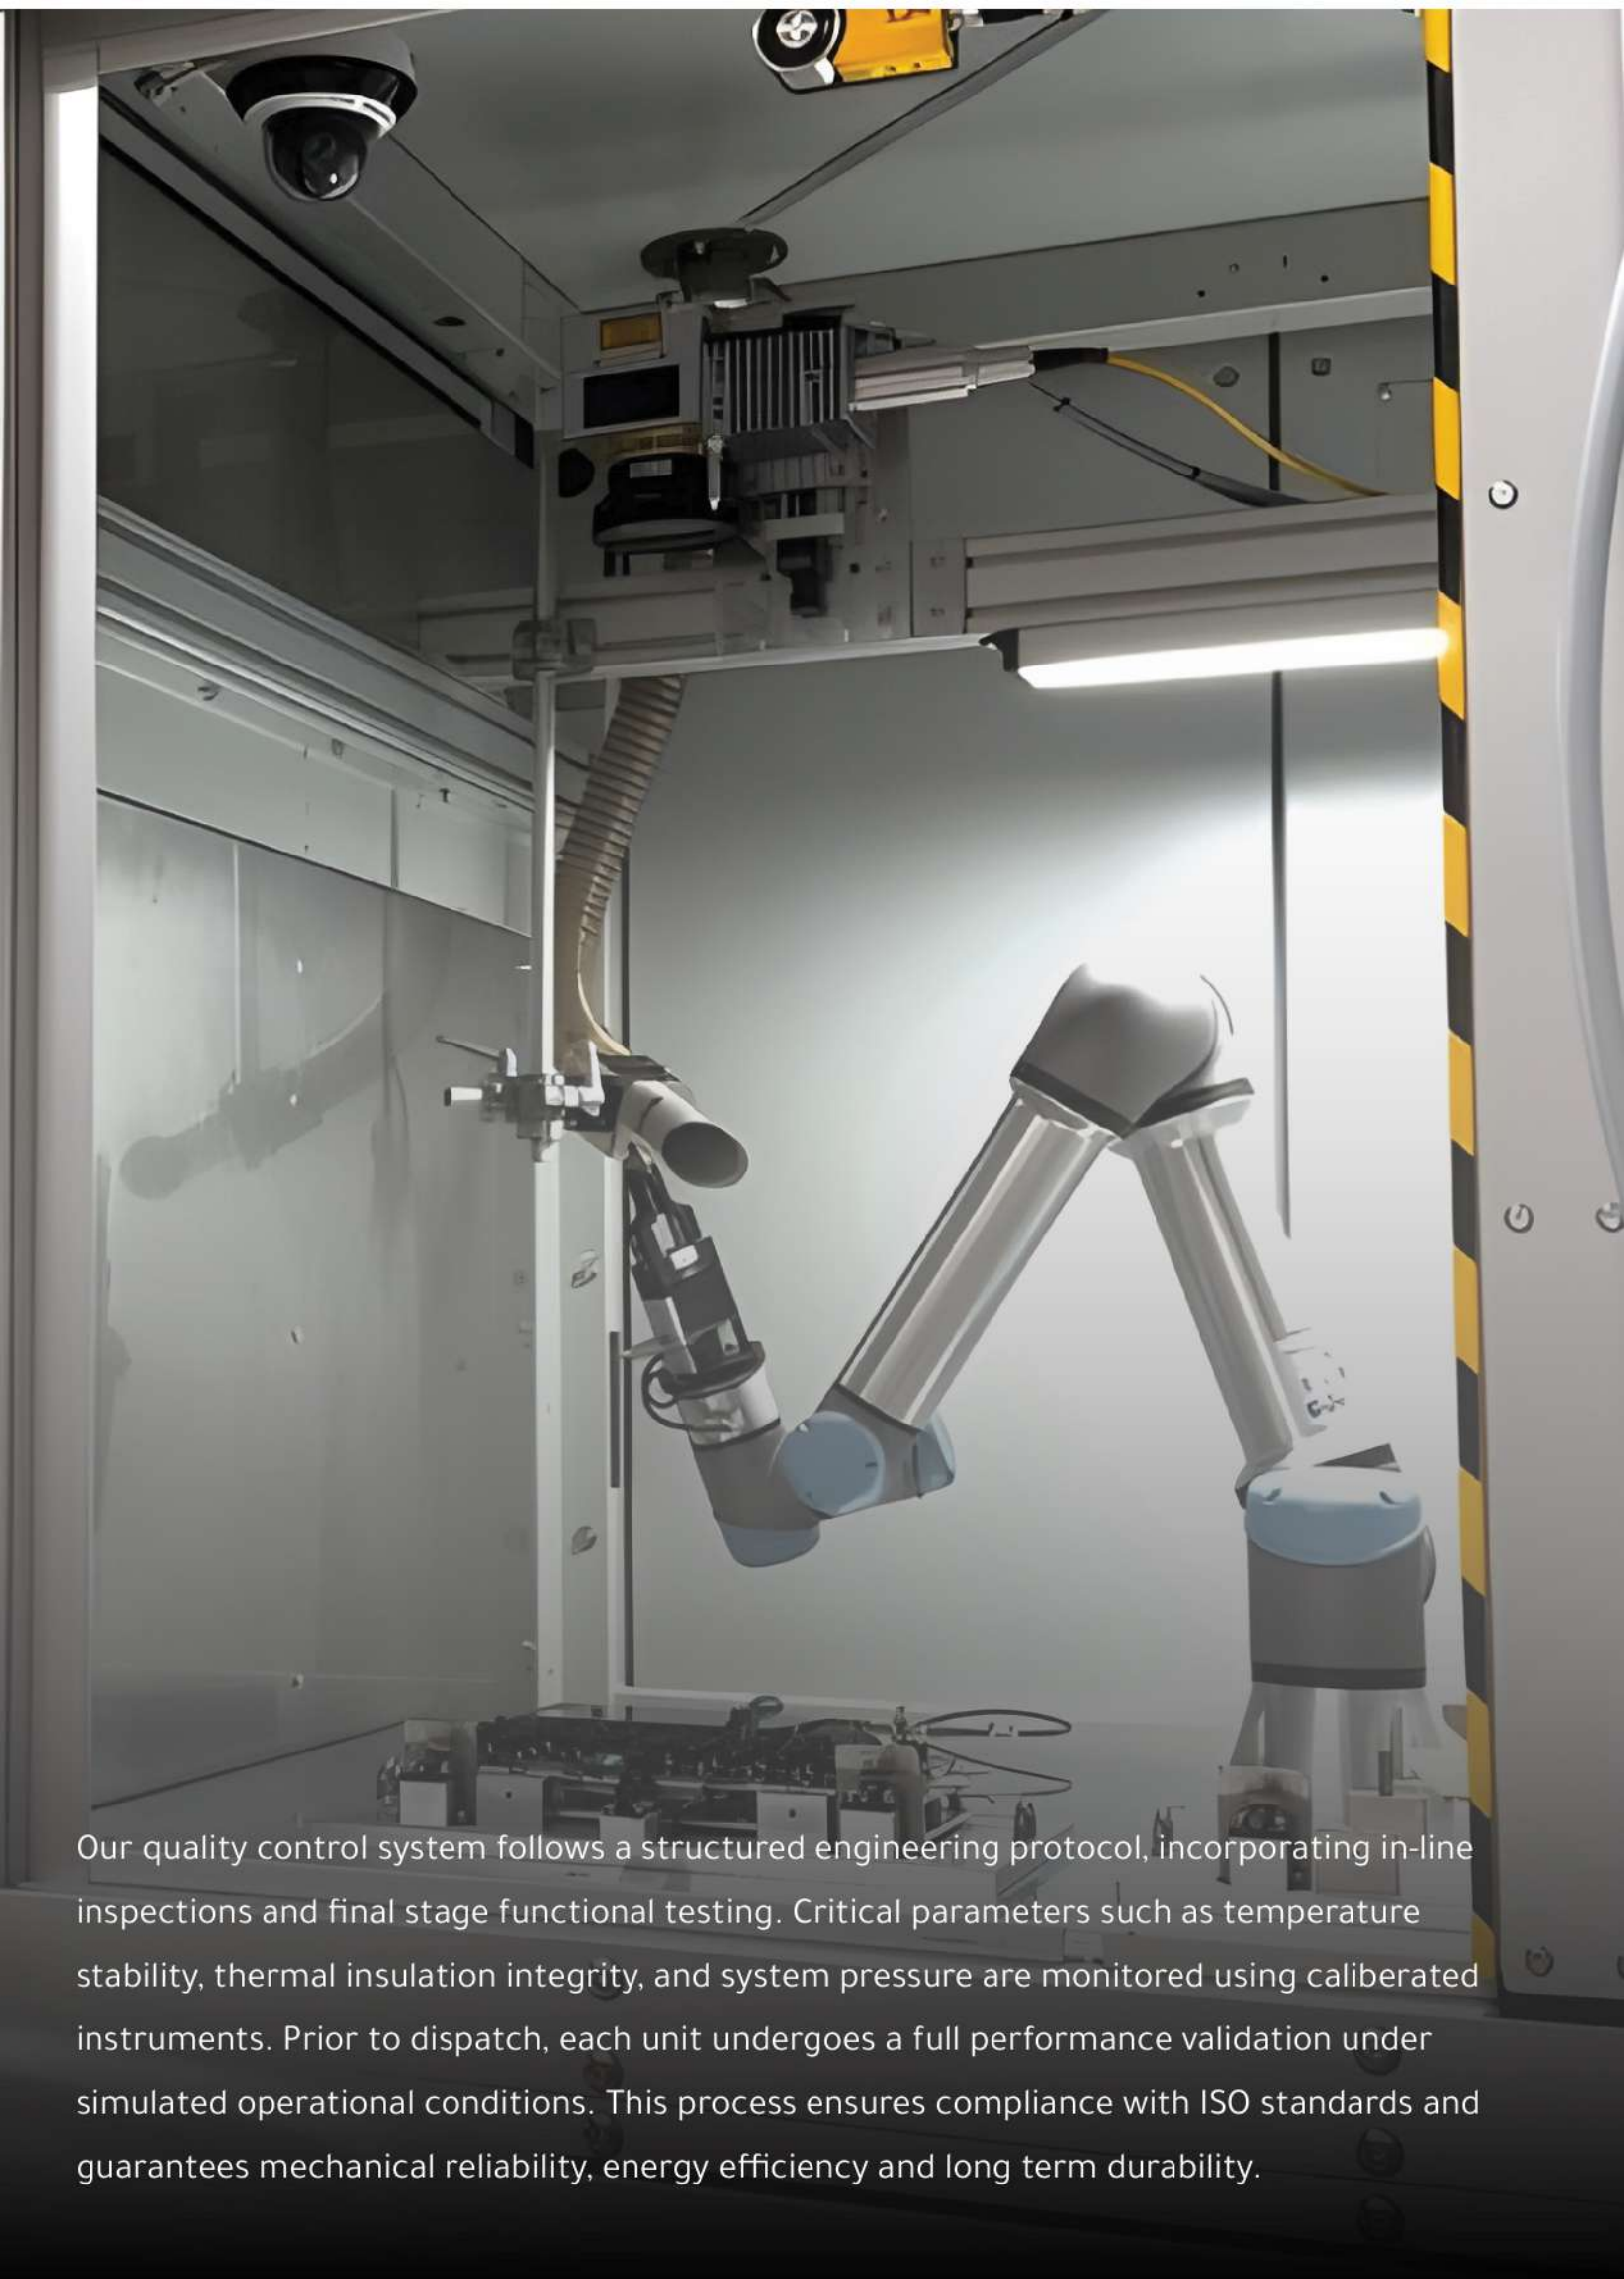

Innovation you can Trust

With us, you choose innovation, reliability, and refined design. Our refrigerators combine advanced technology, productivity, and durability; all designed for lasting performance and convenience. We are committed to fulfilling your requirements and satisfaction, delivering a flawless and rewarding client experience every time.

At Milton Bro, we utilize the latest technology with advanced automation and machine robotics to ensure maximum precision, accuracy, and consistent production quality.

This smart manufacturing approach boosts efficiency, reduces human error, and guarantees superior product reliability in every unit we build.

Our quality control system follows a structured engineering protocol, incorporating in-line inspections and final stage functional testing. Critical parameters such as temperature stability, thermal insulation integrity, and system pressure are monitored using calibrated instruments. Prior to dispatch, each unit undergoes a full performance validation under simulated operational conditions. This process ensures compliance with ISO standards and guarantees mechanical reliability, energy efficiency and long term durability.

Where Trust Meets Technology And Performance Becomes Personal.

You are not just buying a product; you are choosing a partner in reliability, innovation, and excellence.

WHY US?

Trust That Lasts.

You are investing, not making a purchase. You are joining a brand that delivers on its word. With proven reliability, consistent support, and a history of happy clients, we ensure your confidence is never misplaced.

Trust isn't claimed; it's earned, experienced, and remembered.

Unmatched Quality

Our products are crafted with premium material, precision engineering, and cutting-edge technology.

Designed for performance that lasts & elegance that elevates any space.

Credibility You Count On.

We have built our reputation on keeping promises and respecting our business partners' needs and requirements.

Every detail, from material selection to final inspection and testing, is focused on giving you a seamless **Top-tier** experience.

Where Service Meets Excellence.

We do not just sell refrigerators; we engineer a perfect experience. From tailored solutions to rapid support and meticulous after-sales service, every detail is handled with accuracy, urgency, and professionalism.

Milton Bro is a brand built to serve you better every time.

Bottom Line!

We are a lifetime business partner.

Your satisfaction comes first.

Quality is assured.

Let's Redefine Your Expectations

Because You Demand More, We Deliver Beyond

Production Lines :

► Sanitation and Maintenance

Rounded interior corners for easy cleaning and no dirt accumulation.

Built-in drain trap with plug.

Sealed door gasket for hygiene and performance.

► Cabinet Construction

Eco-friendly CFC-free insulation.

Stainless steel interior and exterior for durability and quality.

► Control System

High-precision temperature control.

High-accuracy sensors.

Automatic defrost cycle.

► Quality Testing

Leak testing.

Refrigerant performance.

Cooling test.

Rigorous testing for strength and sturdiness.

► **Factory**

Facility focused on refrigeration manufacturing.

Automated processes for accuracy and efficiency.

Easy logistics process.

► **Refrigeration System**

Removable condensing unit for easy servicing and monitoring.

Anti-corrosion evaporators.

R290 natural gas.

Low power consumption.

High performance.

Fast cooling.

► **Doors**

Self-closing hinges for a secure seal and performance.

Stay-open door system: The system includes a feature that allows doors to remain open when needed.

Leak-resistant door gasket.

Built-in door handles for low maintenance.

► **Quality Assurance & Continuous Improvement**

Certified Factory.

Certified Machinery.

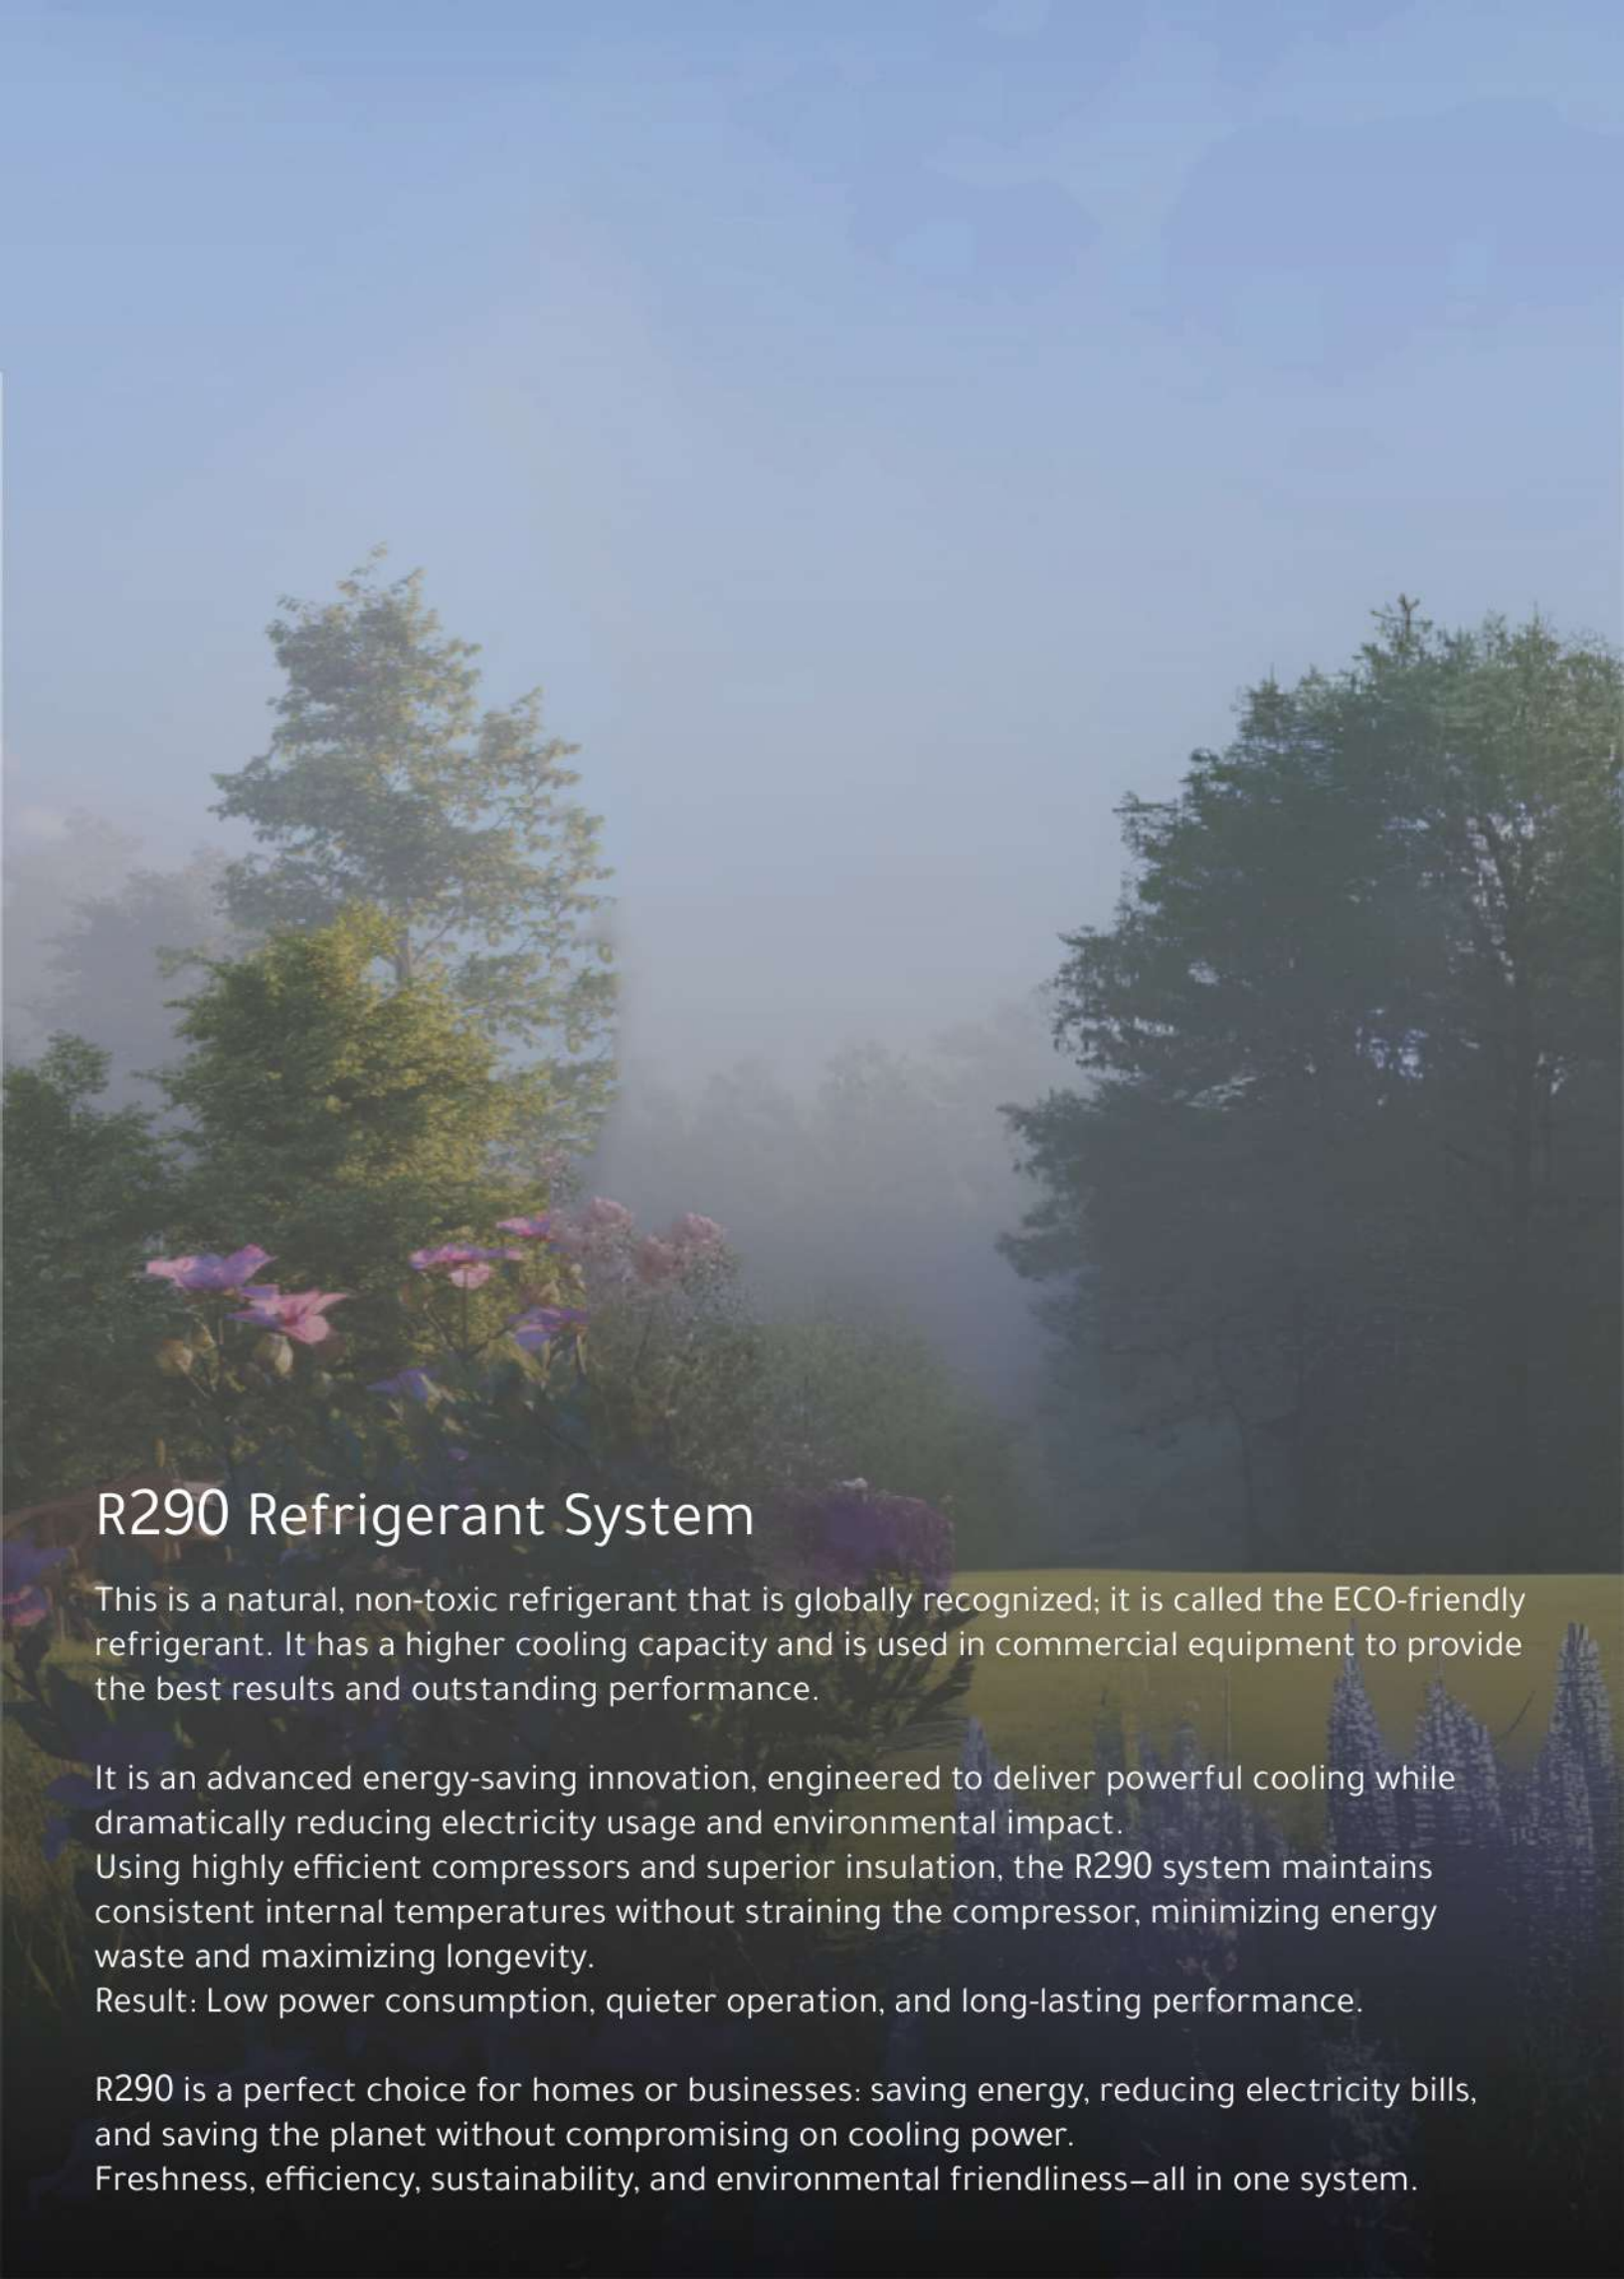

Continuous Testing for Quality.

Continuous Testing for Safety.

Continuous Testing for Cooling.

At Milton Bro, sustainability is at the core of our production philosophy. Our facility proudly operates with ISO 14001 certification, ensuring strict adherence to international environmental management standards. We utilize R290 natural refrigerant, a non-toxic, eco-friendly gas that significantly reduces global warming potential compared to conventional alternatives. Our insulation is completely CFC-Free, eliminating harmful emissions and supporting ozone preservation. Every unit is engineered for energy efficiency, minimizing power consumption without compromising performance. We continuously invest in green technologies and processes to reduce our carbon footprint. From materials to manufacturing, Milton is dedicated to producing refrigeration solutions that are as responsible as they are reliable.

R290 Refrigerant System

This is a natural, non-toxic refrigerant that is globally recognized; it is called the ECO-friendly refrigerant. It has a higher cooling capacity and is used in commercial equipment to provide the best results and outstanding performance.

It is an advanced energy-saving innovation, engineered to deliver powerful cooling while dramatically reducing electricity usage and environmental impact.

Using highly efficient compressors and superior insulation, the R290 system maintains consistent internal temperatures without straining the compressor, minimizing energy waste and maximizing longevity.

Result: Low power consumption, quieter operation, and long-lasting performance.

R290 is a perfect choice for homes or businesses: saving energy, reducing electricity bills, and saving the planet without compromising on cooling power.

Freshness, efficiency, sustainability, and environmental friendliness—all in one system.

UPRIGHT Chiller/Freezer

MB-700CHS

1 DOOR REACH-IN REFRIGERATOR

- ▶ Eco-friendly R290 refrigerant with low power consumption
- ▶ German high-end insulation for superior thermal retention and low energy cost.
- ▶ Premium stainless steel body for long-lasting use
- ▶ Full stainless steel interior and exterior
- ▶ Self-closing magnetic doors for energy efficiency
- ▶ Mono-block system
- ▶ Auto defrost for consistent cooling
- ▶ Smart digital temperature control with high-performance compressor
- ▶ Built-In door handle for:
 - No Maintenance
 - Hassle free
 - No extra spare part
 - Stronger door
 - Wider grip range
- ▶ Super Tropical Cooler

- ▶ Mono-block system
- ▶ Auto defrost for consistent cooling
- ▶ Smart digital temperature control with high-performance compressor
- ▶ Built-In door handle for:
 - No Maintenance
 - Hassle free
 - No extra spare part
 - Stronger door
 - Wider grip range
- ▶ Super Tropical Freezer

i	4 DRAWERS UNDERCOUNTER FREEZER
TEMPERATURE	-10 ~ -22 °C
DIMENSIONS	1420 x 700 x 730 mm
CAPACITY	300 L
FUNCTION	Freezer
DEFROST	Automatic
GAS	R290
CONTROL	Electronic
POWER	485 W
VOLTAGE	220-240 V / 50Hz / 1Ph
MATERIAL	Stainless Steel
REVERSIBLE	Optional
LED	Optional
NET WEIGHT	115 Kg
GROSS WEIGHT	130 Kg
INTERNAL DIMENSIONS	1460 x 760 x 910 mm
CONTROL TYPE	Touch (Milton / Evco)

Optional :

Wheel

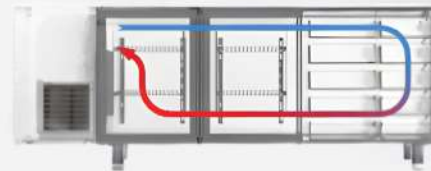

Extra Shelves

MB-450UCHD

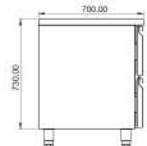

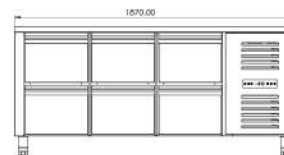

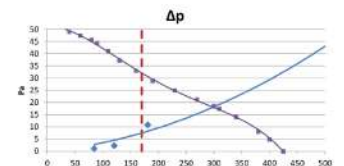

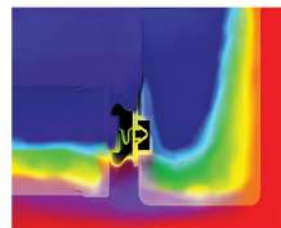

6 DRAWERS UNDERCOUNTER REFRIGERATOR

- ▶ Eco-friendly R290 refrigerant with low power consumption
- ▶ German high-end insulation for superior thermal retention and low energy cost.
- ▶ Premium stainless steel body for long-lasting use
Full stainless steel interior and exterior
- ▶ Self-closing magnetic doors for energy efficiency
- ▶ Mono-block system
- ▶ Auto defrost for consistent cooling
- ▶ Smart digital temperature control with high-performance compressor
- ▶ Built-In door handle for:
 - No Maintenance
 - Hassle free
 - No extra spare part
 - Stronger door
 - Wider grip range
- ▶ Super Tropical Cooler

i	6 DRAWERS UNDERCOUNTER REFRIGERATOR
TEMPERATURE	-2 ~ +8 °C
DIMENSIONS	1870 x 700 x 860 mm
CAPACITY	450 L
COOLING	Chiller
DEFROST	Automatic
GAS	R290
CONTROL	Electronic
POWER	205 W
VOLTAGE	220-240 V / 50Hz / 1Ph
MATERIAL	Stainless Steel
DOOR	Optional
LIGHT	Optional
NET WEIGHT	129.5 Kg
GROSS WEIGHT	145.5 Kg
HEIGHT	1910 x 760 x 910 mm
CONTROL	Touch (Milton / Evco)

Optional :

Wheel

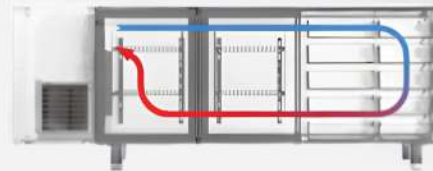

Extra Shelves

MB-450UFRD
